

Lampton Love Hurricane Preparedness Plan

If a disaster strikes and you find yourself in the path of a hurricane, make sure you have the following contact numbers for scheduled propane delivery or emergencies.

The Propane Education & Research Council wrote the following: Keeping your Family Safe: Hurricanes. It lists safety tips BEFORE- DURING & AFTER a Hurricane. Please take time to read and review it with your Family. https://propane.com/wp-content/uploads/2021/11/21PERC0565_2952_Weather-Safety-Guidelines_Hurricanes_LR.pdf

First, contact your local branch office. Remember, if you are in the path of a Hurricane, our local branch location is too. Listed below are the sites and areas in service in potential Hurricane areas.
