Date: July 13, 2021
To: All Branch Managers
From: Gene Maddox
Safety Director 
Subject: Branch Office Monthly Safety Meeting – July 2020

Company policy requires that each branch office hold a minimum of one safety meeting each month with the documentation of the material covered and the attendance being recorded on the "Monthly Safety Meeting Minutes and Attendance Record" (see attached form). **Please detach the Monthly Safety Meeting Minutes and Attendance Record, fill it out and e-mail or fax a copy to Lynn Eldridge. Please keep the original for your records.**

NOTE: ONLY the Monthly Safety Meeting Minutes and Attendance Records is to be sent in.

To assist you in complying with this requirement, the following subjects are for your Monthly Safety Meeting, for the month of July 2021. You may add topics, but please document the following topics:

1. News Briefs!!! (Propane Supply Company)
2. Safety Meeting: (Reducing Slips, Trips, and Falls)

It is recommended that you thoroughly read this material prior to your meeting.

It is strongly recommended that you use the 3-ring binder to store the last 12 months of the Safety Meeting Minutes and Attendance Record Form!!! This material should be referred to or used to train new employees from the website. This manual should be kept in an area of the office that is easily accessible to all employees.

Be Smart...Be Safe and Be Courteous!!!

JULY 2021 SAFETY MEETING

Reducing Slips, Trips, and Falls

When you are confused on your work, you may miss issues that can pose potential hazards. However, a slip, trip, or fall could result in serious injury – one that may affect your ability to perform your job. By exercising precautions and staying aware of your environment and circumstances, you can greatly reduce the likelihood of such issues.

PERFORM A PERSONAL RISK ASSESSMENT EVERY TIME, AT EVERY JOB:

- ◆ Always perform a personal risk assessment for every job. This should take into account weather conditions, route and travel issues, and any special requirements of particular job sites. Examine your surroundings as soon as you arrive to know in advance if surfaces are wet or icy or if there are any other factors that could pose potential dangers.
- ◆ Follow safe practices for entering and exiting your vehicle and avoid situations where you feel your safety may be compromised. Always use three points of contact.

WATCH FOR HAZARDS:

- ◆ Watch for hazards on your path of travel. For propane drivers, these hazards are typically between the truck and the tank.
- ◆ Toys, trash, or tree branches on a customer's premises can cause problems, especially in the winter season. Be aware of hazards under snow that cannot be seen easily.
- ◆ When you are at a commercial or construction site, be cognizant of trash, scrap materials, or unseen surfaces. Conduct a personal risk assessment and make sure your path is clear before you make the delivery.

Discuss any hazards that need to be cleared with the customer. If the customer is not at home during the delivery, contact your supervisor about how to proceed.

WEAR APPROPRIATE PERSONAL PROTECTIVE EQUIPMENT (PPE):

- ◆ Be aware of hazard issues and respond accordingly. If you often encounter slippery surfaces, make sure you wear shoes with slip-resistant soles.
- ◆ If your locations necessitate work boots, keep your boots in good repair. Check them often to ensure your soles provide for adequate traction. Replace any footwear that is worn or tattered.
- ◆ To prevent slips, trips, and falls in winter conditions, wear ice cleats. They easily stretch to fit over your shoes or boots and give you more traction on the ice and snow.

JULY 2021
MONTHLY SAFETY MEETING
